

## Eligible Projects

Eligible Projects can be one of the listed examples below and/or other Eligible Projects which can be defined to contribute to one or more of the mentioned SDGs and for which an impact can be calculated. The mentioned examples are based on projects implemented and/or supported by IceRC in the last five years or are intended in the near future. The exact projects may change over time as the situation evolves, and Eligible Projects will always be within the framework outlined below.

The target populations for the Eligible Projects are people living below the poverty line and/or underserved, excluded and/or marginalized, women and/or sexual and gender minorities, undereducated, migrants, those affected by armed conflict, natural disasters and other emergencies, and/or displaced persons.
